

APPROXIMATE DIAMOND MAINTENANCE COST USING SUPRASHINE PADS

Surface:
industrial concrete

**Concrete Surface Daily Cleaning Costs
(high traffic) using Suprashine**

	Traditional methods	SUPRASHINE Regular	SUPRASHINE HP
17" pads / scrubber (200L)	GREEN PAD	3500	3500
Automatic Maintenance:	RED PAD		
Average area (m ²)	5000	5000	5000
Frequency (times / week)	7	7	7
Pad price (EUR/pad) 1pc 17"	7,78 EUR	28 EUR	39,56 EUR
Quantity of pads on scrubber	2	2	2
Price of chemicals ex. Blitz Citro 1L	2,89 EUR	0 EUR	0 EUR
Price of chemicals ex. Blitz Citro (10L\ pack)	28,9 EUR		
Percentage of chemicals in solution (%)	1		
Chemicals ammount in solution 200L	2		
Solution efficiency 150L (m ²)	2500		
Estimated pad lifespan on unpolished concrete (m ²)*	3000	15 000	30 000
Efficiency of 1 pack of 10L chemicals on concrete (m ²)	12 500		just water, no chemicals
Annual pad amount	433	87	43
Annual chemicals pack ammount (10L\ pack)	104	just water, no chemicals	just water, no chemicals
Number of entities	1	1	1
Annual maintenance cost:			
Pads purchasing cost (EUR / year)	1 769,44 EUR	4 076,80 EUR	3 599,56 EUR
Chemicals purchasing cost (EUR / year)	4 206,22 EUR	0 EUR	0 EUR
Annually:	5 975,67 EUR	4 076,80 EUR	3 599,56 EUR
% savings per year		57%	70%
Total savings per year		1 898,87 EUR	2 376,11 EUR

Application:
warehouses, logistics, production halls
and other facilities with large
concrete surfaces

* Pad performance depends on the surface quality. Pad performance given above
as an example. Performance on polished concrete is up to 120%.
