

[In accordance with the criteria of Regulation No 1907/2006 (REACH) as amended]

**Section 1: Identification of the substance/mixture and of the company/undertaking**

**1.1 Product identifier**

Trade name: **ULTRALIT GLOSS SHIELD**

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

Relevant identified uses: impregnating agent. For professional use.

Uses advised against: not determined.

**1.3 Details of the supplier of the safety data sheet**

Distributor: **ULTRALIT WORLDWIDE DISTRIBUTION**

Address: ul. Parowcowa 4C, 02-445 Warszawa, Poland

Telephone/Fax: +48 22 614-52-04/ +48 22 814-74-81

E-mail address for a competent person responsible for SDS: info@ultralit.eu

**1.4 Emergency telephone number**

112 (general emergency number)

**Section 2: Hazards identification**

**2.1 Classification of the substance or mixture**

The product is not classified as hazardous for human health and for the environment.

**2.2 Label elements**

Hazard pictograms and signal words

None.

Hazard statements

None.

Precautionary statements

None.

Additional information

EUH210 Safety data sheet available on request.

**2.3 Other hazards**

Components of the mixture do not meet the criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation. The product does not contain substances included in the list established in accordance with Article 59(1) for having endocrine disrupting properties, or substances identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0,1 % by weight.

**Section 3: Composition/information on ingredients**

**3.2 Mixtures**

CAS number: 111-76-2 EC number: 203-905-0 Index number: 603-014-00-0 REACH number: -	<u>2-butoxyethanol</u> <sup>1</sup> Acute Tox. 4 H302, Acute Tox. 4 H312, Acute Tox. 4 H332, Skin Irrit. 2 H315, Eye Irrit. 2 H319 <u>ATE:</u> oral: ATE = 1200 mg/kg m.c.	< 5 %
---	--	-------

<sup>1</sup> Substance with occupational exposure limits defined on the European Union level.

Full text of each relevant H phrases is given in section 16 of sds.

**Section 4: First aid measures**

**4.1 Description of first aid measures**

Skin contact: take off contaminated clothes. Wash the contaminated skin thoroughly with plenty of water and soap. Consult a doctor, if disturbing symptoms appear.

Eye contact: protect the non-irritated eye, remove contact lenses. Wash the contaminated eye with plenty of water for 15 minutes. Avoid powerful water stream – risk of cornea damage. Consult an ophthalmologist if disturbing symptoms appear.

Ingestion: do not induce vomiting. Rinse mouth with water. Never give anything by mouth to an unconscious person. Immediately consult a doctor, show container or label.

Inhalation: remove the victim to fresh air. Keep victim warm and calm. Consult a doctor, if disturbing symptoms persist.

**4.2 Most important symptoms and effects, both acute and delayed**

Skin contact: possible redness, dryness in case of prolonged or direct contact with the product.

Eye contact: possible tearing, redness.

Ingestion: possible stomachache, nausea, diarrhea, vomiting.

Inhalation: in case of exposure to high vapour concentration possible irritation of respiratory tract, headache and dizziness.

**4.3 Indication of any immediate medical attention and special treatment needed**

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured. Symptomatic treatment.

**Section 5: Firefighting measures**

**5.1 Extinguishing media**

Suitable extinguishing media: extinguishing powder, extinguishing foam, carbon dioxide.

Unsuitable extinguishing media: water jet – risk of the propagation of the flame.

**5.2 Special hazards arising from the substance or mixture**

During the fire, the product may produce harmful fumes containing e.g. carbon oxides and other unidentified products of thermal decomposition. Do not inhale combustion products, they can be dangerous for human health.

**5.3 Advice for firefighters**

The product is not flammable. Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals. Collect used extinguishing agents. Do not allow them to enter sewers, surface water, groundwater or soil. In case of fire, cool endangered containers with water spray.

**Section 6: Accidental release measures**

**6.1 Personal precautions, protective equipment and emergency procedures**

Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. Ensure that the effects of breakdown are removed only by trained personnel. In case of large spills, isolate the exposed area. Avoid eyes contact and prolonged skin contact. Do not inhale vapours. Ensure adequate ventilation. Use personal protective equipment. Caution! Risk of slipping on spilled product.

**6.2 Environmental precautions**

In case of release of large amounts of the product, it is necessary to take appropriate steps to prevent it from spreading into the environment. Notify relevant emergency services.

**6.3 Methods and material for containment and cleaning up**

Place damaged container in an emergency container. Spills collect with absorbent, e.g. sand, soil, diatomaceous earth, vermiculite, and place it in an appropriate waste containers. Clean and ventilate the contaminated area.

**6.4 Reference to other sections**

Appropriate conduct with waste product – see section 13. Personal protective equipment – see section 8.

**Section 7: Handling and storage**

**7.1 Precautions for safe handling**

Handle in accordance with good occupational hygiene and safety practices. Do not eat, drink or smoke while working with the product. Avoid eye contamination and direct skin contact. Before break and after work wash hands. Do not inhale vapours. Ensure adequate ventilation. Use in accordance with its intended purpose. Keep the unused containers tightly closed. Containers that are opened should be properly resealed and kept upright to prevent leakage.

**7.2 Conditions for safe storage, including any incompatibilities**

Store only in original, tightly closed containers in a dry, well-ventilated place. Avoid direct sunlight. Do not store with incompatible materials (subsection 10.5). Protect from freezing.

**7.3 Specific end use(s)**

No information about other uses than those mentioned in subsection 1.2.

**Section 8: Exposure controls/personal protection**

**8.1 Control parameters**

Specification	TWA 8 hour	STEL 15 min
2-butoxyethanol [CAS 111-76-2]	98 mg/m <sup>3</sup>	246 mg/m <sup>3</sup>

The table above shows the maximum workplace concentration values on the European Union level.

Basis: Commission Directive 2000/39/EC, 2006/15/EC, 2009/161/EU, 2017/164/EU, 2019/1831/EU.

Please check any national occupational exposure limit values in your country.

Recommended control procedures

Procedures concerning the control over the dangerous components concentrations in the air and control over the air quality in the workplace – if they are available and justified for the position – in accordance with the European Standards, with the conditions within the exposure place and a proper test methodology adapted to the working conditions.

**8.2 Exposure controls**

Appropriate engineering controls

Use the product in accordance with good occupational hygiene and safety practices. When handling do not eat, drink or smoke. Before break and after work wash hands carefully. Avoid eye contamination and prolonged skin contact. Do not inhale vapours. Ensure adequate ventilation in order to maintain the concentration of harmful factors below the limit values.

Individual protection measures, such as personal protective equipment

The necessity to use and selection of appropriate personal protective equipment should take into account the type of risk posed by the product, working conditions and the way of handling the product. The personal protective equipment used must meet the requirements of Regulation (EU) 2016/425 and the relevant standards. The employer is obliged to provide protection measures appropriate to the activities performed and meeting all quality requirements, including their maintenance and cleaning. Any contaminated or damaged PPE must be replaced immediately.

Hand protection

In case of frequent or long-term contact with the product it is recommended to use gloves resistant to the product (EN 374). Wear protective clothing.

The glove material has to be impermeable and resistant to the product. The choice of material for protective gloves should be made taking into account the breakthrough times, permeation rate and degradation. Moreover, the selection of the appropriate gloves does not only depend on the material, but also on other quality characteristics and varies from manufacturer to manufacturer. The exact breakthrough time has to be obtained from the glove manufacturer and it must be observed.

Eye/face protection

Use protective glasses, if there is a risk of eye contamination (EN 166).

Respiratory protection

Not required, if the ventilation is adequate. If the occupational exposure limit values are exceeded or in emergency situations, use appropriate respiratory protection.

Thermal hazards

Do not occur.

Environmental exposure controls

Do not allow the large quantity of mixture to contaminate ground water, wastewater, canalization or soil. Possible emissions from the ventilation systems and processing equipment should be controlled in order to determinate their compatibility with environmental protection regulations.

**Section 9: Physical and chemical properties**

**9.1 Information on basic physical and chemical properties**

Physical state:	liquid, emulsion
Colour:	white
Odour	characteristic, mild
Melting point/freezing point:	not determined
Boiling point or initial boiling point and boiling range:	100 °C (concentrate)
Flammability:	product is not subject to flammability
Lower and upper explosion limit:	not determined
Flash point:	82 °C (concentrate)
Auto-ignition temperature:	not determined
Decomposition temperature:	not determined
pH:	ca. 11
Kinematic viscosity:	not determined
Solubility:	miscible with water
Partition coefficient n-octanol/water (log value):	not determined
Vapour pressure:	not determined
Density and/or relative density:	1 g/cm <sup>3</sup> (concentrate)
Relative vapour density:	not determined
Particle characteristics:	not applicable

**9.2 Other information**

No additional test results.

**Section 10: Stability and reactivity**

**10.1 Reactivity**

The product is reactive. It does not undergo dangerous polymerisation. See also subsections 10.4-10.5.

**10.2 Chemical stability**

The product is stable under normal conditions of storage and use.

**10.3 Possibility of hazardous reactions**

No hazardous reactions are not known.

**10.4 Conditions to avoid**

Avoid direct sunlight. Protect from frost.

**10.5 Incompatible materials**

Strong oxidizing agents, strong acids.

**10.6 Hazardous decomposition products**

Not known.

**Section 11: Toxicological information**

**11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008**

Information regarding acute and/or delayed results of the exposure was defined on the basis of the information on product's classification and/or toxicological studies as well as the experience and knowledge of the manufacturer.

Acute toxicity

Based on available data, the classification criteria are not met.

Skin corrosion/irritation

Based on available data, the classification criteria are not met.

Serious eye damage/irritation

Based on available data, the classification criteria are not met.

Respiratory or skin sensitization

Based on available data, the classification criteria are not met.

Germ cell mutagenicity

Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met.

Reproductive toxicity

Based on available data, the classification criteria are not met.

STOT-single exposure

Based on available data, the classification criteria are not met.

STOT-repeated exposure

Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

Information on likely routes of exposure

Routes of exposure: skin contact, eye contact, inhalation, ingestion. See subsection 4.2 for more information on the effects from each possible route of exposure.

Symptoms related to the physical, chemical and toxicological characteristics

See subsection 4.2.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

See subsection 4.2.

**11.2 Information on other hazards**

Endocrine disrupting properties

The product does not contain substances included in the list established in accordance with Article 59(1) for having endocrine disrupting properties, or substances identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0.1 % by weight.

Other information

Not applicable.

**Section 12: Ecological information**

**12.1 Toxicity**

The product is not classified as hazardous for environment.

**12.2 Persistence and degradability**

No data.

**12.3 Bioaccumulative potential**

No data.

**12.4 Mobility in soil**

Mobility of components of the mixture depends on the hydrophilic and hydrophobic properties and biotic and abiotic conditions of soil, including its structure, climatic conditions, seasons and soil organisms.

**12.5 Results of PBT and vPvB assessment**

Components of the mixture do not meet the criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation.

**12.6 Endocrine disrupting properties**

The product does not contain substances included in the list established in accordance with Article 59(1) for having endocrine disrupting properties, or substances identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0,1 % by weight.

**12.7 Other adverse effects**

The mixture is not classified as hazardous to the ozone layer. Consider other harmful effects of individual components of the mixture on the environment (eg, global warming potential). Large spills of the product to water lead to increase of pH value, what has a negative impact on fauna and flora.

**Section 13: Disposal considerations**

**13.1 Waste treatment methods**

Disposal methods for the mixture: disposal in accordance with the local legislation. Small quantities of the product can be removed with municipal waste. Store residues in original containers. Recycling is preferred. Waste code should be given in the place of waste formation.

Disposal methods for used packing: reuse/recycle/eliminate empty containers in accordance with the legislation in force. Only containers completely empty can be recycled.

Legal basis: Directive 2008/98/EC as amended, 94/62/EC as amended.

**Section 14: Transport information**

**14.1 UN number or ID number**

The product is not classified as dangerous during transport.

**14.2 UN proper shipping name**

Not applicable.

**14.3 Transport hazard class(es)**

Not applicable.

**14.4 Packing group**

Not applicable.

**14.5 Environmental hazards**

Not applicable.

**14.6 Special precautions for user**

Not applicable.

**14.7 Maritime transport in bulk according to IMO instruments**

Not applicable.

**Section 15: Regulatory information**

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**ADR** Agreement concerning the International Carriage of Dangerous Goods by Road

**IMDG** Code International Maritime Dangerous Goods Code.

**IATA** Dangerous Goods Regulations.

**Regulation (EC) No 1272/2008** of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 as amended.

**Regulation (EC) No 1907/2006** of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC as amended.

**Commission Regulation (EU) No 2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

**European Parliament and Council Directive 94/62/EC** of 20 December 1994 on packaging and packaging waste as amended.

**Directive 2008/98/EC** of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives as amended.

**Regulation (EU) No 2016/425** of the European Parliament and of the Council of 9 March 2016 on personal protective equipment and repealing Council Directive 89/686/EEC.

**Commission Directive 2000/39/EC** of 8 June 2000 establishing a first list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work.

**Commission Directive 2006/15/EC** of 7 February 2006 establishing a second list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC and amending Directives 91/322/EEC and 2000/39/EC.

**Commission Directive 2009/161/EU** of 17 December 2009 establishing a third list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC and amending Commission Directive 2000/39/EC.

**Commission Directive 2017/164/EU** of 31 January 2017 establishing a fourth list of indicative occupational exposure limit values pursuant to Council Directive 98/24/EC, and amending Commission Directives 91/322/EEC, 2000/39/EC and 2009/161/EU.

**Commission Directive 2019/1831/EU** of 24 October 2019 establishing a fifth list of indicative occupational exposure limit values pursuant to Council Directive 98/24/EC and amending Commission Directive 2000/39/EC.

**15.2 Chemical safety assessment**

A Chemical Safety Assessment is not required for mixtures.

**Section 16: Other information**

Full text of indicated H phrases mentioned in section 3

H302	Harmful if swallowed.
H312	Harmful in contact with skin.
H315	Causes skin irritation.
H319	Causes serious eye irritation.
H332	Harmful if inhaled.

Clarification of aberrations and acronyms

PBT	Persistent, Bioaccumulative and Toxic substance
vPvB	very Persistent, very Bioaccumulative substance

Acute Tox. 4      Acute toxicity, category 4  
Eye Irrit. 2      Serious eye damage/eye irritation, category 2  
Skin Irrit. 2      Skin corrosion/irritation, category 2

### Trainings

Before commencing working with the product, the user should learn the Health & Safety regulations, regarding handling chemicals, and in particular, undergo a proper workplace training.

### Key literature references and sources of data

This sheet was prepared on the basis of SDS provided by the manufacturer, literature data, online databases (eg. ECHA), our knowledge and experience, taking into account the current legislation.

### Additional information

Classification of the mixture was based on its physicochemical properties and on hazardous substances' concentration using calculation method, according to Regulation 1272/2008/EC (CLP) as amended.

Version: 2.0/EN

Changes: sections: 1-16

Safety Data Sheet made by: **THETA Consulting Sp. z o.o.** (based on manufacturer's data)

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. That does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field.
